

This catalogue is a summary of all the Rapid Vulnerability and Adaptation Assessments that have been conducted by PACE-SD.

Compiled by: Ashmita Ali, PACE_SD, USP.

European Union-Global climate Change Alliance Project (USP-EU GCCA)-

its main purpose is to develop and strengthen the Pacific ACP countries' capacity to adapt to the impacts of climate change. This objective will be achieved through the training of national and regional experts on climate change and adaptation as well as the development and implementation of sustainable strategies for community adaptation to climate change, based on improved understanding of impacts of climate change and variability in the Pacific region.
